Growing support for people with disabilities

scosa, the **Spastic Centres of South Australia** has been providing services and support for people with disabilities for over 50 years in South Australia. Our aim is to help our clients achieve the most out of every day - **we play, we care, we laugh, we enjoy!**

scosa has recently opened two fantastic new Hub facilities, one in Mitcham and one in Gilles Plains to help support people with disabilities in the local communities.

"We are very excited about the opening of our new Hubs at Gilles Plains and Mitcham. They are both very large facilities and provide an array of activity rooms where clients enjoy sporting, music and other activities, a sensory room, client friendly kitchen and a secure garden offering recreational opportunities for our clients too." Says Judy Curran, Chief Executive, **scosa**.

"Our new Hubs provide us with a wonderful opportunity to help support the local community and our clients are having a great time decorating the new Hubs with their artwork and creating the most delicious dishes in the kitchen." says Judy

scosa now has ten (10) very successful Hubs both in metropolitan Adelaide and regional locations, where the primary goal is to deliver engaging and developmental activities for people with disabilities that enhance their social and life skills to become a valuable member of their local community.

Clients who attend the new Hubs are also able to participate in many community activities at public and community venues.

"Our aim is to always provide as many community based activities as possible for our clients and ensure that they are comfortable and have easy access to the things they need to make every day enjoyable and rewarding." says Judy.

scosa is committed to facilitating individual choice, community inclusion and participation, developing and promoting individuals' potential whilst ensuring people with disabilities have the necessary assistance, support and flexibility in arrangements to meet complex and changing needs.

scosa continues to seek opportunities for future Hubs in Adelaide to further grow the organisation and offer its services to more people with disabilities throughout South Australia.
